It showed this to the Director who was most interested. This would indicate that we are doing a pretty good job with retiree. A problem was always be tough with resignees, especially if the "unsuitable" category continues to run as high as it now appears.

MEMORANDUM FOR: Executive Director-Comptroller

SUBJECT : Post-CIA Employment - Retirees and Resignees

1. This memorandum is for your information only.
2. We have attached three charts which set forth Agency separation total, retirees, resignees, and death totals for calendar years 1966 and 1967 and the period 1 January - 20 March 1968 (Chart A). Chart B is concerned with our assistance to retirees seeking post-Agency employment and Chart C is concerned with similar assistance provided to our resignees. Basic records and pertinent statistical data are maintained by our Retirement Counselors and External Employment Assistance Branch Interviewers and compiled on a monthly and yearly basis.
3. During 1966 and 1967 we assisted 26 percent of those retiring in finding new employment. Since the advent of our Retirement Counseling and Placement Program, we have experienced a sharp rise in the assistance program, namely, 45 percent of those who retired between 1 January - 20 March 1968 have received assistance.
4. Assistance was provided to 37 employees in 1966 and to 42 employees in 1967. This assistance was usually provided to employees prior to the years they were scheduled to retire from the Agency. Pre-retirement assistance has been provided to 47 employees during the first three months of this year by EEAB Interviewers. This work load is over and above that provided the same group by our Retirement Counselors who provide general retirement counseling and guidance in contrast to the Interviewers who assist in the preparation of resumes, contact prospective employers and furnish specific job leads to the prospective retiree. While EEAB Interviewers conduct exploratory interviews with most prospective retirees and assist them in preparing resumes, 30 to 40 percent make an initial decision not to work following retirement.
